Male

Health

Excellent

Nationality

South African

EXECUTIVE SUMMARY

Dedicated IT professional with hands-on experience in software development, Full stack development, database systems, and web development. Strong problem-solving and analytical skills complemented by excellent teamwork and communication abilities. Passionate about technology, innovation, and delivering effective solutions.

WORK EXPERIENCE

Software Developer Intern

Spacebar Solutions, July 2024 – August 2025

- Developed and tested software applications like Visual Assistance Referee using Python and HTML/CSS. Using Git changes
- Built and maintained backend systems with Java for efficiency and reliability.
- Assisted in database management and API development to facilitate data exchange.
- Collaborated with team members to debug and troubleshoot software issues.
- Contributed to software documentation and project reports.
- Performed unit testing and contributed to technical documentation.

Junior Full Stack Developer

ATISA Technology (PTY), July 2025 – March 2026

- Contributed to the development of GradPro, a web platform designed to connect recent graduates with junior job opportunities posted by businesses and institutions.
- Assisted in building and integrating RESTful APIs to enable communication between the frontend and backend services.
- Supported the deployment and hosting of the system on Amazon Web Services
- Utilized Docker for containerization and environment consistency during development

OBJECTIVE

Enthusiastic and dedicated Computer Science graduate seeking a Software developer position to apply my technical skills, problem-solving abilities, and eagerness to learn. Committed to contributing positively to team goals and organizational success.
